Ebl 6f22 charger manual. Ebl 6f22 charger. Ebl 6f22 charger instructions.

Compatible batteries: 6F(9V) lithium Advanced technology - This EBL charger fully complies with the automatic charging standard of internal electronic devices. In addition, based on MCU control technology, the charger provides constant current and tension for safety. I don't charge for non-rechargeable batteries. Activate and maintain the button to confirm that you are human. Charge: Full battery red light; Green light in Flashing red light; short circuit, non-rechargeable battery, automatic stop charge NoNote0 All 9v ion batteries are 8.4V and battery charger only charge for 9V rechargeable batteries. Over time, the cost is very low. In addition, it meets the concept of environmental protection for its intelligent protection and its cycle load. Keep it away from heat equipment or high temperature place, and do not expose to direct sunlight. Intelligent LED Light Smart LED Light to Show Charge Progress: RED -- Loading; GREEN - Full LoadCompatible with:6F22(9V) Ion Rechargeable Battery Compatible Models Recommended for Smoke Alarms, Professional Audio and Medical Devices. The internal charger meets the standard of advanced technology and high quality. You won't lose too much performance: the best rechargeable battery can power your device with a single charge, which lasts as long as high quality disposable batteries. In most cases, if you are using rechargeable batteries instead of disposable batteries. Product Specification: Entry: DC 5V/1.0A ; Product: 150mA*2 Max No Charge Power Consumption:1W MAX ; Full- Load Power Consumption:5W MAX Battery Loading Price: 90% Size:90mm x 60mm x 38mm ; Weight:46g First-level quality: This EBL battery charger is able to charge one or two Li-On batteries. Package content: 1 EBL battery charger; USB, 1of user. The loader is applicable for a wide range of 12 voltage world voltage.
